

Heritage Style Country Gates, Stock Equipment, General Welding & Fabrication

## Portable Horse Yards

*We have two different designs depending on your requirements...*

### Hinged Panels

These panels are not as rigid as the ones below and are better on uneven ground. They self connect with no pins to lose. Pictured is 2 x 4m, 1 x 3m panels)

4m, fold down to 2m panels	\$110
3m, fold down to 1.5m panels	\$105
Pair of float mounts	\$88 (not required if yards are freestanding)

### Single Panels with Pins

These lock together so panels can't be lifted apart by your horse. Prices include pins.

1.8m Single Panels	\$75 (longer panels cost an extra \$1 per 10cm)
Set Float Mounts	\$65 (not required if yards are freestanding).

### Extras

***For transporting the panels on the side of your float ...***

Fixed hanging brackets (pair)	\$92
Removable hanging brackets (pair)	\$250

- *All orders are custom made so design can be modified to suit, e.g. for small ponies.*
- *We can add extra bars and change the length to suit individual floats/needs.*
- *Pins are set flush so there are no hooks or protrusions to get caught on.*
- *Joins are notched, not squashed so they're much stronger and panels are neater to look at.*
- *Panels are cleaned so there are no sharp slaggy bits to catch on or cut you or your horse.*

**For any of our custom made products for ...**  
**Horses • Cattle • Sheep • Alpacas • Goats • Etc**
